FREEDOM PREPARATORY ACADEMY

Leading the Way in Education

Freedom Preparatory Academy was founded on the vision of Utah families who believed that a better model of K-12 education could be created. Now, with well over a decade of distinguished progress and achievement, this vision has been realized and thousands of students flourish in their pursuit of educational excellence. A closely connected school community works daily to initiate and support best practices, cutting edge technology and a learning environment rich in leadership and accountability. Our future citizens experience real joy as they pursue the quest of knowledge in all areas. From Latin and ASL to engineering and art, Freedom Prep is today's best choice in the K-12 setting.

LEADING IN PROGRAM OFFERINGS

In addition to our core classes of Language Arts, Science, Social Studies and Math, we offer a wealth of course options to enhance student preparation for post-secondary life.

21ST CENTURY LEARNING

We believe in providing students with modern skills and knowledge that will allow them to thrive once they leave our halls and move into their post-secondary careers. Leadership, communication, and technological literacy are weaved into our curriculum to prepare our students for the future.

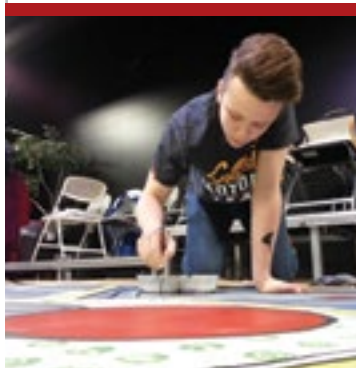

AP[®]

AP CLASSES

We offer five AP classes: AP English, AP Calculus, AP Physics, AP World History, and AP Art Studio. Math students from 7th-12th grade are offered the opportunity to enter the AMC 8, AMC 10/12 math competitions and many students are invited to the State Math Competition each year.

FINE ART

Students discover the visual arts through a contemporary art lens, while exploring various mediums. This program prepares students to create artwork that is personally meaningful and socially relevant, while at the same time building on the creativity and artistic interests of its students.

MULTIMEDIA

Through access to top-of-the-line digital equipment and software, students learn to communicate their ideas through the creative process.

THEATER

Courses provide students with an enriching communication experience while our black box theater allows flexibility in various presentation styles.

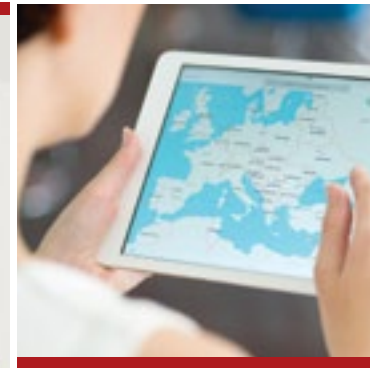

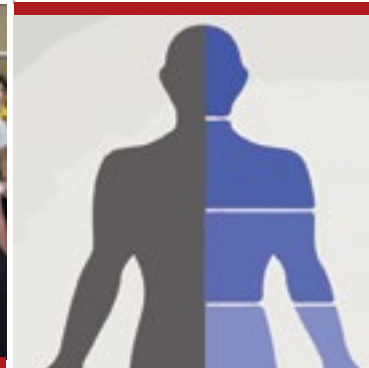

MUSIC

Discipline, structure and teamwork play an essential role in creating an enriching and upbeat musical learning experience. Students work individually and collectively to reach a common goal of producing and performing various works through voice and instrument.

PERSONAL HEALTH

Through health, physical education, and nutrition courses, students learn the value of not only caring for their minds, but their body as a whole.

FOREIGN LANGUAGES

Recognizing the increasing interconnectivity of the world we emphasize the importance of understanding multiple languages and connecting with various cultures.

LEADING IN EXTRACURRICULAR OPPORTUNITIES

At Freedom Prep we realize being a leader is not just about academic achievement, but growing in every facet of one's life. We offer many opportunities for student enrichment outside the classroom.

LEADER IN ME

Stephen Covey said, "Leadership is communicating to people their worth and potential so clearly they are inspired to see it in themselves." At Freedom Academy we believe every student is capable of being a leader. Through teaching the Seven Habits of Highly Effective People we invite and encourage students to be better, work harder and take ownership of the present while preparing for the future.

STUDENT LEADERSHIP

Students play an integral part in influencing our school culture through a myriad of leadership opportunities including Student Body Council, Seven Habits Lighthouse Team, Service Unit, and the Technology Team.

SERVICE LEARNING

Students are given multiple opportunities to participate in both community and global projects. Previous projects have included community landscaping, building a well in India, and organizing a 5K run to raise money to improve health and education conditions in 3rd world countries.

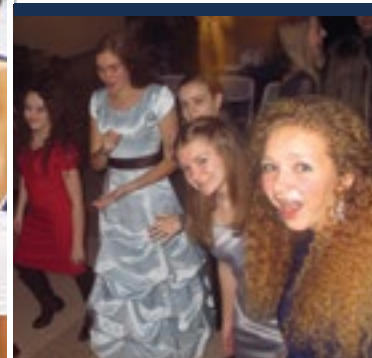

ATHLETICS

We offer competitive programs in cross-country, track, volleyball, flag football, basketball, archery, soccer, and cheer-leading. Each year our athletics program continues to grow in size, opportunity and excellence.

STUDENT BODY ACTIVITIES

Our students participate in a wide variety of activities including school dances, team sports and after school groups. Most of our after school classes are student led, providing leadership and organizational experience.

STUDY ABROAD

Each year study abroad opportunities are available to our students. These once-in-a-lifetime trips bring the classroom to life by allowing students to experience the cultures they have been studying. Our teaching staff organizes the study abroad program with careful attention to creating a rich educational opportunity that enhances the curriculum of our courses.

AFTER SCHOOL ENRICHMENT

In addition to our extracurricular activities, after-school opportunities are provided for students to further their education. These include tutoring, ACT test preparation and an intervention program aimed to support students who have fallen behind in their work.

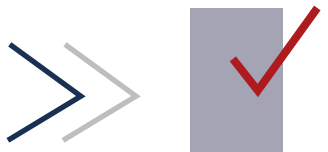

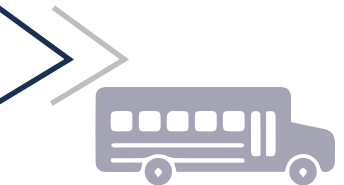

LEADING IN COLLEGE PREPARATION

Preparing our students for post-secondary careers, college preparation is of the highest priority. Emphasizing 21st century skills imperative for success, our students acquire the knowledge and ability to excel.

PREPARE

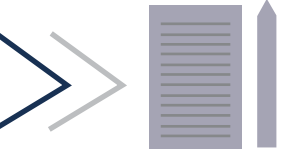

Students are prepared through rigorous curriculum and leadership development programs. During our daily advisory class college preparatory lessons are a central focus.

VISIT

Throughout the year, students visit college campuses and have visiting university representatives present on the opportunities that lay ahead.

DEVELOP

In preparation for the college acceptance process, students receive individual support and guidance as they apply. They are also involved in an ACT readiness program.

FINANCE

With an on-staff scholarship advisor, our goal is to have every student receive scholarship money for their college education by the time they graduate.
