Vending Machines and Other Food Sales

Policy No. 9

Freedom Academy allows vending machines for student use if contents comply with the school Wellness Policy (policy #5). Vending machines for teacher use are permissible but must be located in the faculty lounge out of student sight. These types of machines may be contracted through an outside vending machine company or owned by the school. Students are not allowed to purchase items from these machines.

Sale of food items to students outside the cafeteria is permitted only in accordance with the Wellness Policy and after approval of the Director. (example – PTO Fundraiser, Student Council, 7th & 8th grade fundraising.)
