## Freedom Prep Virtual Academy (FPVA) Learner Validated Attendance Policy

Policy No. 48

---

FPVA will provide at least 990 instructional hours over the course of each school year, to full-time students, as required by Utah Administrative Rule R277-419-4, unless other rules waive or supersede this requirement. Students enrolled in FPVA are considered members of a learner validated program. As a learner validated enrollment measurement students are required to log-in a minimum of once a week and participate in active work. Students that have not made personal contact or evidence of participation for ten constructive days will be considered truant and will be dropped from the school's membership roll.

Procedures have been developed that will be followed to ensure that students will meet the required instructional hours while providing the flexibility needed by students enrolled in FPVA. Students' attendance will be monitored by facilitators, learning coaches, and teachers of record. FPVA attendance will be marked weekly in the school's SIS system.
