WE HELP STUDENTS ACHIEVE THEIR PERSONAL BEST.

In partnership with parents, we help students experience success by teaching them to think critically, connect socially, and serve selflessly. We create a safe learning environment that supports and challenges students to achieve their personal best.

Our teachers are licensed professionals who meet students where they are by designing learning experiences that adapt to their unique needs. We also offer a variety of extracurricular programs to help students further develop their abilities. With multiple schools and locations, families can enroll all of their children in a seamless educational experience.

Since 2003, we have been teaching students how to be successful in school and in life.

EVERY STUDENT RECEIVES A PERSONALIZED SUCCESS PLAN.

No two students are the same. That's why we work with parents to create a personalized Student Success Plan for each student that focuses on their areas of strength and opportunities for growth.

Whether your student is above grade level in a particular subject area or has room for improvement, our teachers collaborate with you to design a plan that meets your students' unique needs.

This plan will include opportunities for your child to develop their social skills, expand their service capacity, and enhance their foundational academic abilities.

SUCCESS
PLAN**

LIVING OUR VALUES HELPS US FULFILL OUR PROMISE.

The beliefs and behaviors
we live by help our students
achieve their personal best.

CREATE EMOTIONAL SAFETY

Our teachers, counselors, and administrators work together to create an emotionally safe environment. We follow a dress code to help our students avoid unproductive social comparisons. And we cultivate a culture of acceptance.

DEVELOP THE WHOLE PERSON

Along with delivering a rigorous academic curriculum, we teach students how to develop good character through proven programs such as “Leader in Me,” “Love & Logic,” and “Why Try.” Our extracurricular activities teach students leadership skills and help them further develop their talents.

PERSONALIZE THE LEARNING EXPERIENCE

Every student has unique aptitudes, and we seek to help identify and develop them. Our teachers are licensed professionals who connect with each student. They use best practices and technology to provide adaptive learning opportunities to meet students where they are.

DEFINE SUCCESS

We help students define and achieve meaningful goals at every grade level. Whether students are preparing for middle school, high school, college or career, we facilitate real-world experiences. Our high school students graduate with a diploma, a resume, and a five-year plan.

COLLABORATE

Our stakeholders work together in meaningful ways to create learning opportunities for student growth. We encourage parental and community involvement.

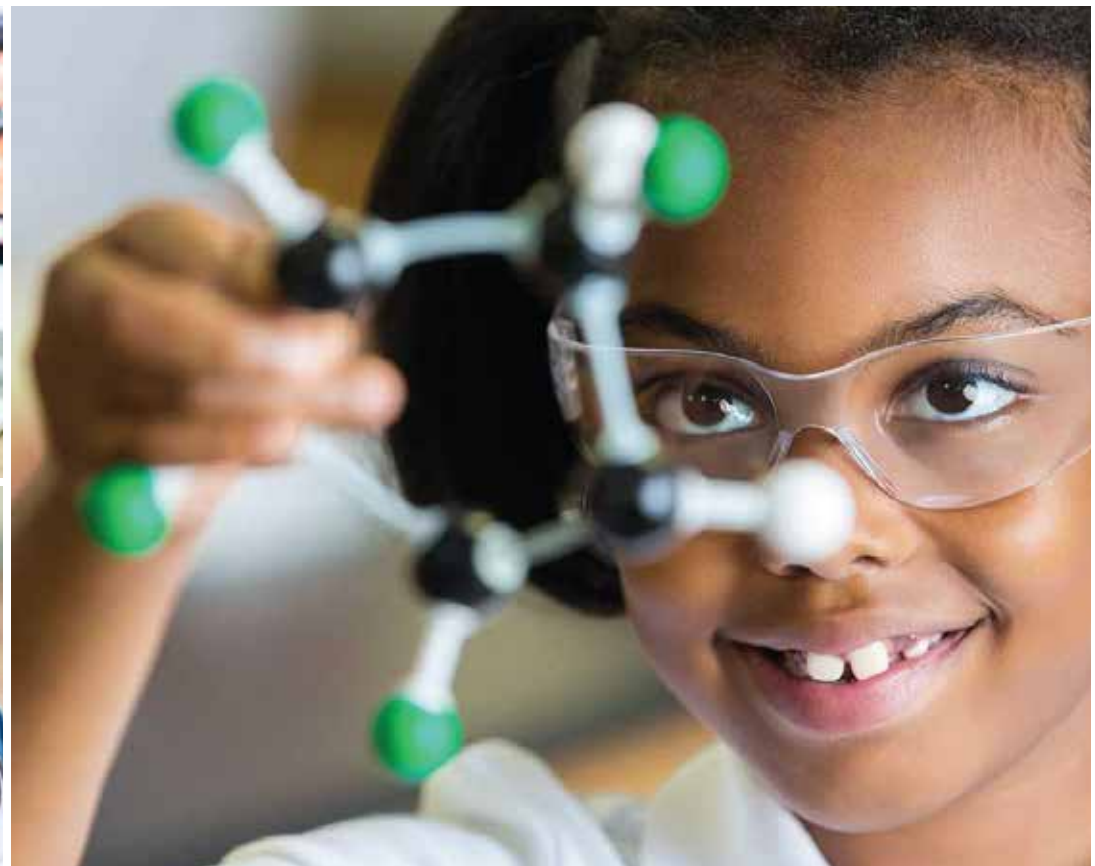

EMBRACE DIVERSITY

The students we serve come from a variety of backgrounds and walks of life. We celebrate the opportunity to learn from one another's points of view and life experiences. Our diverse learning environments reflect the world our students will enter as adults.

THE PATH TO SUCCESS STARTS AT A YOUNG AGE.

From kindergarten through the fifth grade, our elementary schools provide students with a tailored learning experience. By focusing on each student's strengths and areas for growth, we help them reach their highest potential. Your student's success is our top priority.

Our approach to education is
both caring and collaborative.
