

Academies Registration Information

Freedom Prep offers five academies, and it is our vision, beginning with the Class of 2023, that every student will graduate from one of the five academies.

Below you will find each academy and its course requirements. Courses should be taken in the recommended sequence whenever possible. Students graduating in 2023 and 2024 will have reduced academy requirements for graduation.

After reviewing the academies information, declare your academy on your registration form, and sign up for your academy-specific courses. *CAPS/Capstone/Internship will become available in SY 23-24.
