Side salads are offered daily</p>	<p>This institution is an equal opportunity provider.</p>

At Freedom Preparatory Academy we know how important exercise and nutrition are to proper growth, strength, fitness, mental health AND learning!

Every month we will have a Gold Medal Mile lunch to celebrate the students' success walking around the world. We will incorporate the yearly theme ([Myths, Legends and Folklore](#)) and "visit" different countries. We will provide a meal that is like what may be served there. If you have recipes or items from the listed countries on the menu, or would like to do a display during lunchtime about a featured country, we'd love your contribution. Please contact Dr. Dean (801-437-3137) to make arrangements.

However, sometimes our vendors run out of product due to high demand and supply-chain problems so we may have to make occasional substitutions. No matter what, students will get high quality, complete meals.		Prices K-5 - \$1.70 Adult - \$3.00 Milk - \$0.50 All meals include MILK Extra Milk - \$0.50

The Gold Medal Mile Program

You may have heard that one of the biggest threats to our children's health today is obesity - either now or in the future. We try to help you teach by example healthful eating and exercise behaviors to prevent this serious problem. One of the ways we do that is the Gold Medal Mile Program.

Classes compete to see who can walk/run (or equivalent) the farthest each month as we collectively "walk around the world."

As you may know, classes at Freedom Preparatory Academy Elementary schools have two 5-minute fitness breaks in the classroom to help them be at their best every day. Teachers have a walking conversion factor for various activities, so these breaks count toward their class miles. Children are also encouraged to walk the Gold Medal Mile route around the playground at recess.

The only out of school exercise that is counted is if the student is part of an organized sports team such as soccer, football, etc. Individual lessons such as dance and martial arts can also be counted. We have a short "coach's form" which can be completed by the coach/instructor.

Obesity can be a serious lifelong health issue. Even if no family members are overweight, **teach children by the entire family's example** to avoid foods that are deep-fried or high in added sugar. Save those for special occasions. *Sweet drinks (like soda) are especially harmful.*

Emphasize fruits, vegetables and whole grains. Do active things for fun and limit screen time (other than schoolwork, of course.) Encourage (don't force) children to *try* everything on their plate so they will learn to like healthy foods.

These efforts will help your entire family be healthy, both physically and mentally!
